### Career Reads Like Fiction.

The career of H. C. Ostermann, who was the genius of the graft scheme by which the Illinois Central railroad was robbed of \$2,000,000, is interesting. Ostermann related his life history in Chicago a few days ago while on the witness stand.

Ostermann began life as a newsboy. At the tender age of 8 he was selling papers for a living. At 15 he quit selling papers to become a hobo in a New York hotel. He stayed with the hotel three years and then was by turns a cash boy, a telegraph messenger boy and a clerk in a cigar store. At fourteen he enlisted in the United States Navy and served three years. Subsequently he picked oranges and did odd jobs in California and worked for some time as a sailor on steamships which plied between San Francisco and Panama. At one time he was employed on a ranch in Montana and for a while he was a performer in a Wild West show.

He frequently worked as a day laborer and once was employed as a section hand on the Great Northern railroad. In 1890 he got a job as brakeman on the Illinois Central. He worked his way up to conductor and while thus engaged invented a grain car. That gave him the building idea and thus came about the repairing plant which was so fertile in graft.

Newspaper reports of the investigation in Chicago have told of Ostermann's methods and how Illinois Central officials of high repute made sacrifice of their reputations and prospects in order to secure some of the dishonest money which Ostermann temptingly placed before them. The scheme was exposed after Ostermann and his associates had robbed the railroad company of some \$2,000,000 of its earnings.—Ex.

### Niles A Murderer.

A merciless murderer is Applegate with many victims. But Dr. King's New Life Pills kill it by prevention. They gently stimulate stomach, liver and bowels, prevent that clogging that invites appendicitis, curing constipation, headache, biliousness, Chills. 25c at Haydon & Robertson.

### Serious Runaway.

A runaway horse, frightened at an automobile, came very near resulting in the death of Mrs. Onis Hood last Sunday morning. Mr. and Mrs. Hood were driving down Main street when their horse became very much frightened at Mr. Charles Riker's motor. In order to avoid another encounter with the animal, Mr. Riker drove his car around a back street, but just as he was turning the corner of Main and Lexington to go home, he ran unexpectedly into the Hood buggy a second time. The animal whirled and tried to run away and Mrs. Hood was thrown from the car and knocked unconscious. She was carried into Meiburg and Hocker's drug store and physicians summoned, but it was sometime before they could restore her to consciousness. Later she was taken to the home of Mr. Bud Salloe, and given attention. An examination showed that no bones were broken, but she was badly bruised. Mr. Hood escaped with only slight injuries.—Harrodsburg Herald.

### The Tobacco Situation.

The failure thus far to consummate the pooling of the 1910 Turkey crop seems to have caused the throwing on the market at Lexington of a large part of the 1909 pooled crop. Sales have been held this week at Lexington and the prices realized have been quite disappointing to growers. It is stated that the American Tobacco Company has declined to bid at these sales and that only bidders were independent manufacturers and brokers. On

Wednesday, October 12, 1806 hhds. were sold at Lexington, the prices ranged from \$3.25 for S-3 to \$12.50 for C-4. These prices are said to be from 5 to 8 cents below the schedule prices fixed by the Burley Society.

From press dispatches from several counties in the Burley district it is learned that the effort to pool the 1910 crop is being renewed, but on a different basis from that proposed by the Burley Society. The new pooling contract seems to contemplate separate pooling by the several counties, and counties' tobacco to be sold separately and each counties' crop to pay its own expenses. That is that one county will not be called on to help pay the expense of any other county. It provides that the pool will not be binding till 150,000 acres have been pledged. County meetings have been called for November 5th, at which each county will select a representative to attend a general meeting to be held at Lexington, November 10th. The outcome of this new movement will be watched with interest by all Burley tobacco growers.—Farmers' Home Journal.

### Capt. Bogardus again hits the Bull's Eye

This world famous rifle shot who holds the championship record 100 pigeons in 100 consecutive shots is living at Lincoln, Ill. Recently interviewed, he said: "I suffered a long time with kidney and bladder trouble and used several well known kidney medicines, all of which gave me no relief until I started taking Foley's Kidney Pills. Before I used Foley's Kidney Pills I had severe backaches and pains in my kidneys with suppression and a cloudy urine. On arising in the morning I would get dull headaches. Now I have taken three bottles of Foley's Kidney Pills and feel 100 per cent better. I am never bothered with my kidneys or bladder and again feel like my own self." Haydon & Robertson.

### A Hint To Mothers.

If you wish to cultivate a gossiping, meddling, censorious spirit in your children, be sure, when they come home from church, a visit or any place to which you do not accompany them to ply them with questions concerning what everybody wore, how everybody looked, and what everybody said and did; and if you find anything in all this to censure always do it in their hearing. You may rest assured if you pursue a course of this kind, they will not return to you unladen with intelligence; and rather than it should be uninteresting, they will by degrees learn to embellish in such a manner as shall not fail to call forth remarks and expressions of wonder from you. You will by this course render a spirit of curiosity—which is early visible in children and which, if rightly directed, may be made the instrument of enriching and enlarging their minds—a vehicle of mischief which will serve only to narrow them.—Spencer Courier.

### A Reliable Medicine.

Not a Narcotic. Get the genuine Foley's Honey and Tar in the yellow package. It is safe, and effective. Contains no opiates. Refuse substitutes. Haydon & Robertson.

### Many Indictments Returned.

The grand jury, which has been in session for only one day more than a week, yesterday afternoon returned sixty indictments. Among them were true bills against the proprietors of the different soft drink establishments in the city. The indictments charge "selling, bartering or loaning a beverage, liquid mixture or decoction which causes intoxication, in a territory where the local option law is in effect." This is the first time a

grand jury has ever returned indictment against "soft drink" establishments. A. Lee, charged with selling liquor without license, was indicted 21 times. The indictments returned were for the following offenses:

Drawing a deadly weapon upon persons who are in automobile. The same person was also indicted for carrying a concealed deadly weapon. Assault and battery 2, detaining woman 1, petit larceny 2, unlawfully taking property of another 1, retailing liquor without license 2, breaking into store house 2, keeping 16, concealed deadly weapon 2, breach of peace 1, failing to display State license number on auto 1, disturbing religious worship 1, suffering gaming intoxication, in local option territory 5.—Lebanon Enterprise.

### A Generous and Charitable wish

"I wish all might know of the benefit I received from your Foley's Kidney Pills," says L. N. Regan, Farmer, Mo. His kidneys and bladder gave him much pain, misery and annoyance. He could not work, nor sleep. He says Foley's Kidney Pills completely cured him. Haydon & Robertson.

### Family Reunion.

The twentieth annual reunion of the Thomas H. and Sarah T. Williams' family met on Thursday, Oct. 6, at the home of Samuel Walter Williams near Springfield, to celebrate the birthday of their mother, Mrs. Sarah T. Williams.

Mrs. Williams departed this life in May 1900 at the age of seventy-two years, leaving five boys besides her husband, Thos. H., who survived her but a few years. There now remain only three of the children, Rev. J. H. Jesse R. and Samuel W. Williams. It was decided two years ago that the reunion should continue to meet at Harrodsburg as long as the invalid brother, Dr. T. D. Williams should live. After his death in February last the reunion took up its regular order of meeting, running according to the ages of the sons.

Notwithstanding a continuous down-pour of rain on Thursday the meeting was well attended. Those present were: Rev. and Mrs. Jas. Williams, of Paris, Ky. Jesse R. Williams and wife, of Maple Hill, Mrs. Teresa Williams, Bardonia, Mr. and Mrs. Wallace Brown, Bardonia, Mrs. Mattie Bussey, Louisville, Mr. and Mrs. Ivan Sale, Macksville, Mrs. Eliza Mitchell and son, El. Lacey Ky., Mr. and Mrs. C. M. Williams and son, Thos. Dawson Maple Hill, Mr. Bruce Williams and sons, Holding and High School and J. B. of Mooreville, Missa Sue and Kate Rabel, of Mooreville, Dr. and Mrs. R. H. Williams, New Hope, Ky., Mr. and Mrs. Newton Arnold, Mt. Zion, Mrs. Marvin Williams and daughter, Rorane, of Louisville, Mrs. Joe N. Hays and son, Edison, of Mt. Zion, Messrs. Reed and Logan Crane, Springfield and visitors, Mr. and Mrs. Sam Hardesty, of Washington Co.

The reunion adjourned to meet next Oct. 6, at the residence of Mrs. Theresa Williams, of Bardonia.—Bardonia Standard.

### Notice to Creditors.

All persons having claims against the estate of the late W. P. Montgomery are hereby notified to present the same properly proven to W. C. McChord, attorney for the estate at once. All persons knowing themselves indebted to the estate are requested to pay the same at once, as it is important that the estate be settled as soon as possible. September 27, 1910. R. L. Montgomery, Administrator.

### For More Than Three Decades

Foley's Honey and Tar has been a household favorite for coughs, colds and ailments of the throat, chest and lungs. Contains no opiates. Haydon & Robertson.

### Girl Lies Down In Train's Path.

Puduch, Ky.—When a fast freight rattled around a bend and tore down the grade toward Luzerne early today, eighteen-year-old Rosalie Pettie ran along the track, and when the engine was about a hundred feet away, deliberately laid down across one of the rails.

### Local Option Election Is Again Declared Illegal

For the second time it has been decided by a national having jurisdiction that the local option election held in this city on August 11, was illegal. In the circuit court Wednesday at noon Judge Thurman delivered an opinion in the contest case, which was before him on appeal, in which he upheld the decision of the County Contest Board. As will be remembered, this Board held that the election had been illegally called and was therefore invalid. Whether an appeal will be taken to the Appellate Court is, at this time, not known.

At the election the wets were successful by a majority of thirteen votes. However, a few days following the drys filed a contest alleging that the election was invalid, and asking that it be set aside. The contest was based principally upon the grounds that the petition asking for a vote on the liquor question was filed, and the order calling the election was entered, at the same term of court. The contestants contended that, to comply with the law, the petition should have been filed at one term of court, and the order calling the election entered at a succeeding term.

The case was heard by the County Board of Contest a short time ago. This Board composed of County Judge A. P. Carter and Magistrates J. C. Beaven and George Mattingly, all three of whom are sympathizers of the wet movement, decided unanimously that the election had not been properly called and was therefore invalid. It was from this decision an appeal was taken to the circuit court.—Lebanon Enterprise.

Good results always follow the use of Foley's Kidney Pills. They contain just the ingredients necessary to tone, strengthen and regulate the kidneys and bladder, and to cure backache. Haydon & Robertson.

### Good News From The Youth's Companion.

We have had to make The Youth's Companion larger to get in all the good things that Companion Readers ought to have. The added amount would make four hundred pages of standard magazine size and print; and we have kept the price just the same—\$1.75 for the fifty-two weeks of 1911, and all the issues for the rest of this year free from the time you send in your subscription.

We would like to tell you what is in store for Companion readers next year. We cannot do it here, though; there is not room but send us your address on a postal card, and we will send you the beautiful Prospectus of The Companion for 1911, announcing many new features, together with sample copies of the paper. We think you will agree, when you have read them, that there is no other paper that gives quite so much of such a high quality as The Companion.

The new subscriber receives a gift of The Companion's Art Calendar for 1911, reproducing in twelve colors and g-lid a beautiful water-color garden scene. THE YOUTH'S COMPANION, 144 Berkeley St., Boston, Mass. New Subscriptions Received at this Office.

### Not Coughing Today?

Yet you may cough tomorrow! Better be prepared for it when it comes. Ask your doctor about keeping Ayer's Cherry Pectoral in the house. Then when the hard cold or cough first appears you have a doctor's medicine at hand. Your doctor's approval of its use will certainly set all doubt at rest. Do as he says. He knows. No alcohol in this cough medicine. J. C. Ayer & Co., Lowell, Mass. Robust health is a great safeguard against attacks of cold and influenza. No cold medicine will destroy the best of health. Ask your doctor about Ayer's.

The Pettie girl had been corrected by her father this morning, and is thought to have brooded over the punishment until she determined to end her life.

### At It Again.

The Danville Advocate says the mysterious 'show' which continued for two weeks on the farm of Mr. F. M. Bower near Parisville last fall, reappeared two days ago and has been in progress for the past two days. The phenomena is attracting wide attention and many people are mystified. The space covered by the 'show' is about one hundred feet square. A great many people are flocking to the scene to witness the remarkable sight. Last year a dog on the farm continued to chase around the circle covered by the rain, but this time he pays no attention to the myste-y.

### Served Him Right.

The Bourbon News says a master who had a habit of giving women as they come out of the opera house there, was rendered speechless the other night when he accepted an unattended young woman with 'I love my wife, but oh you kid.' With a withering scorn she turned to him and said loud enough for all around to hear: 'I love my dog out oh you pup.' It knocked out the master so completely that he slunk away in the darkness and will doubtless hereafter be noticeable for his absence from former scenery.

### Forced To Leave Home.

Every year a large number of poor sufferers whose lungs are sore and racked with coughs are urged to go to another climate. But this is costly and not always sure. There's a better way. Let Dr. King's New Discovery cure you at home. "I cured me of lung trouble," writes W. R. Nelson, of Calumet, Ark. "when all else failed and I gained 45 pounds in weight. The surely the King of all cough and lung cures." Thousands owe their lives and health to it. Its positively guaranteed for Coughs, Colds, Laryngitis, Asthma, Croup—all Throat and Lung troubles. 50c and \$1.00. Trial bottle free at Haydon & Robertson.

### Why He's a Candidate

The people of this section have wondered why it was that Dr. Goodie was trying to think that he was running again for Congress in this District, but could not find a reason. The following special from Lebanon in the Louisville Herald suggests one: "Dr. W. D. Goodie Republican nominee for Congress in the Fourth District, was here today in the interest of his candidacy. He saw a vast number of the voters and was warmly received. Dr. Goodie is making a thorough and dignified canvass of the district and expects to win the fight against Congressman Ben Johnson.

A big element of the Democratic party in this district favor the nomination of James B. McCreary for Governor and it is said they will stay at home or vote the secret ballot on November 8. There are two hundred precincts in the district and in case five McCreary Democrats in each precinct vote for Goodie this would eliminate Johnson from the Governor's race."

He wants to help out McCreary. Well that's considerable. He wants to show McCreary that he is grateful for the kind assistance that McCreary rendered his friend Senator Bradley when the latter defeated Cripps Beckham for the U. S. Senate. We are glad that the Doctor has an excuse.—New Haven Echo.

### 14 Preachers Win Pardon.

United action by fourteen ministers on behalf of a convict in penitentiary so impressed Acting Gov. W. H. Cox, that he granted a pardon to the man. Goodie is the convict and he was serving life sentences for murdering having been convicted in Bell County. It is claimed by friends of the prisoner and the

### 1910 Poll Fails

Lexington, Ky., Oct. 15.—The 1910 poll of the Burley Tobacco Society has failed.

Reports from the counties in the burley belt, where meetings were held today, indicate the same general result in all the counties in difference to the new pooling plan by which the growers' pledges were to be held by committees of their own selection until the strength or weakness of the pool was shown, and then cast for it if it was strong, or destroyed if it showed weakness.

In Fayette county only twenty-six acres were pooled, in Jessamine none, and another meeting was ordered for Monday. Only 350 acres were pooled in Montgomery, none in Clark where an individual county pool was advocated, Bourbon's meeting also was disappointing, and Mason voted to have 125,000 acres or no pool at all.

No interest was shown in Madison, and not an acre was pooled though Chairman Jesse Cobb spoke for two hours in an appeal to the independents. In Harrison county the same meeting was totally attended and President Lehigh himself spoke. The growers instructed their representatives to use their own judgment as to declaring the pool on or off.

Old Burley Society members tonight were blue over the situation which is generally admitted to be hopeless. Judged by their prayers, some are trying hard to take the Lord in.

No man ever got any important place by teaching other people their places.

If facts are tickle to heaven it is going to take some saint a long time to arrive.

Some never get over the wonder that folks so important as themselves should go to church.

Have we any right to condemn the vicious when we make the conditions of virtue so hard?

When your religion is an umbrella laid up for rainy day the weather is apt to be doubtful.

The only reason some believe that are saints is that their neighbors wish they lived in another world.

We are all likely to think that kinship to the heavenly father must be established by likeness to ourselves.

Some men who talk a lot about a fruitless ministry would have a fit if the preacher told the truth about them.

Does the Work of a Furnace!

It's by far the greatest heater on earth! Built on an entirely different principle than others. Heats by circulation instead of radiation. One Moore's Air Tight Heater will heat your entire house—upstairs and down—and keep every floor as warm as though you had a furnace. It heats the air in the farthest room to the same temperature as the air in the same room as the stove.

**Saves Over Half Your Coal Bill!**

Moore's Air Tight Heater burns hard coal or the cheapest kind of slack, and can be run at less than half the cost of other heaters. The Egg Shaped Dome and Hot Air Firepot consumes all the carbon in the coal, thus overcoming the smoke and soot nuisance as well as making the fuel last longer. There are no chimneys and no cinders.

The Dust Fan takes all the dust and small ashes up the chimney, thus preventing them from collecting on the floor and furniture. The Ashpan Apron keeps all ashes from falling on the floor when removing pan.

All parts are surface ground and fit together air tight. Nothing but asbestos wicking is used in mounting. It expands and contracts with the heat so that the stove is perfectly air tight and under complete control at all times.

**The Handsomest and Handiest Heater Ever Made!**

**Quality in Cattle.** High class animals always have the most quality. It is shown in a fine silky coat of hair, is a mellow, elastic skin and in the bones and meat joints. There is lots of difference in the cost of hair. One cow may have hair that is fine and soft and thick. There is a very fine and close undercoat and then longer, coarser hair. Such hair is a great protection in winter. Other animals, and they are the most common, have coarse, long hair. Their bones are also likely to be big and coarse. When an animal has plenty of quality you can easily take the skin in the hand between thumb and fingers and pull it out from the side of the body. It will be mellow and roll up some what in the hand. If the cow lacks quality her skin will be thick, tight and not easily taken in the hand. Fine quality as seen in the hair, skin and bones means with the beef animal that when killed there will be much less waste of the carcass than if the conditions show lack of quality. So also the dairy cow with plenty of quality is a better producer of milk than if the quality is lacking.—C. S. Plumb, Ohio.

**Feeding Dairy Cows.** Of the mistakes made in feeding dairy cows perhaps the most common is feeding the most common. It is a very serious mistake to feed a cow only that required to keep her body and then not feed her enough in addition to produce what milk she can. If a cow declines in weight while giving milk it shows that she is not receiving sufficient food, as a cow if not fed enough will produce milk for a time at the expense of her body. That is, she will take the surplus flesh from her body and convert it into milk and thereby will lose in live weight. On the other hand, when a cow is being overfed it may be detected in a short time by the fact that she will put on fat. This means feeding enough to maintain practically a uniform weight.—C. H. Beckie, University of Missouri.

#### Pantry Shower.

The ladies of the Springfield  
Baptist church gave to Rev. W.  
H. Williams and wife on last  
Monday a pantry shower. They  
were the recipients of quite a  
quantity of preserved fruits and  
other provision, their pantry  
being filled.

#### Fine Stock Sale.

At Mr. L. M. Gregory's sale  
on next Thursday, Oct. 27, there  
will be offered for sale some of  
the best stock ever offered at a  
public sale in Washington coun-  
ty. There will be a large num-  
ber of mules, horses, cows and  
sheep. The sale will be held at  
Mr. J. S. Yanke's stables five  
miles from Springfield. The  
sale will commence promptly at  
10 o'clock and lunch will be  
served at 1 p. m.

#### Ben Johnson To Be Here.

Hon. Ben Johnson, Democra-  
tic nominee for Congress in the  
Fourth district will speak at the  
Court House on next Monday,  
County Court day, in the interest  
of his candidacy for re-election.  
Mr. Johnson is an able speaker  
and all who go to hear him will  
be entertained by a good speech.  
He has made County Court day  
speeches in many counties and  
is having large crowds to hear  
him wherever he goes.

#### Circuit Court.

Next Monday will be a big day  
in Springfield as it is both the  
first day of County Court and of  
Circuit Court and further be-  
cause there will be a political  
speaking in town.

The docket in the circuit court  
will be large in both civil  
and criminal cases, there being  
32 old and 51 new indictments.  
There are 60 old and 15 new  
equity cases, and 15 old and 15  
new Common Law appearances.  
For several courts preceding last  
court there had been very light  
dockets but the great increase  
in the volume of business in the  
county, has necessarily made more  
activity, and it can be  
truthfully said that the increased  
amount of litigation is commen-  
surate with the increased activity  
in all other lines of business.

#### Millinery Bargain

New hats for Friday and  
Saturday. Big black satin  
shapes, \$2.50 value; for  
\$1.50 Saturday only.  
Mrs. Williams.

#### Squire Hendren's Court.

Saturday was the regular term  
of the magisterial Court in Squire  
Hendren's District. There was  
a large docket of both civil and  
criminal cases, most of these  
however were continued. Es-  
quire Hendren and J. W. Gor-  
don presided in joint session.  
The case of the Commonwealth  
vs Everett Dedman, for breach of  
the peace by unmercifully whip-  
ping a boy in school, resulted in  
an acquittal.  
The case of the Commonwealth  
vs Oscar Scott, Delbert Scott  
and Luther Hardin for breach of  
the peace, resulted in a fine of  
\$2.50 apiece.

Since the erection of the new  
Court House court can be held  
much easier than before. The  
building is a handsome structure  
and of an ornament to the county  
as well as the city.

#### Leachman Settles.

Mr. Ross Settles and Miss  
Lillian Leachman surprised  
their friends on last Sunday  
night by eloping and getting  
married at the residence of Rev.  
J. A. Simms at Williamsburg. Mr.  
Settles is a son of Mr. Henry  
Settles and an industrious farmer.  
The bride is a daughter of  
Mr. and Mrs. John Leachman,  
of Pleasant Grove, and is quite  
young—being fifteen years of age.

#### John H. Kearns Dead.

It will be a matter of regret to  
many Washington county people  
to learn of the death of John  
H. Kearns on last Monday of Mr. John  
H. Kearns. He was fifty-two  
years old and was a native of  
Marion county, Ky. For several  
years he was engaged in business  
in Lebanon, Ky., and was a  
member of the Burk Spring Dis-  
tillery Company of Loretto.  
Three years ago he moved to  
Louisville, Ky. and became pro-  
prietor of the Victoria Hotel.  
Two months ago he was forced  
to resign his position because of  
ill health. Mr. Kearns was a  
prominent and highly esteemed  
citizen.

#### Canary.

Mrs. Lucy Canary died at the  
home of her step daughter, Mrs.  
Emily Ocanougher, near Texas,  
on Last Tuesday afternoon of  
infirmities incident to old age.  
Mrs. Canary was previous to  
her marriage a Miss Hall and  
was a daughter of Mr. Carter  
Hall. She was 86 years old and  
a life long resident of this  
county. Many years ago she  
was married to Mr. Abram Can-  
ary, grandfather of Melara Ab-  
ram and R. C. Canary, of this  
county.

Funeral services will be con-  
ducted today at Bethlehem by  
Rev. R. L. Pardon.

#### Geo. W. Chescheir Dead.

Mr. Geo. W. Chescheir, who  
for several years was a resident  
of Springfield, died at his home  
in Louisville, Ky. after an illness  
of two years. He was fifty-six  
years of age and thirty-eight of  
these years had been spent as an  
engineer, and during most of the  
time he was on the run between  
Springfield and Louisville.  
While on this run he lived with  
his family at this place up until  
nine years ago when he moved  
to Louisville. He was very  
popular, being polite and affable  
to strangers as well as  
friends. As an engineer he was  
regarded as one of the best in  
the service of the L. & N. Rail-  
road.

He is survived by his wife,  
Mrs. Alice Chescheir, and four  
sons, James, of Ft. Scott, Kas.,  
Geo. W. Jr., Alfred E., and Rus-  
sel Chescheir, of Louisville.

#### Poultry Notes.

A good dust bath is the hen's best  
cure for lice.  
Keep the appetite lusty and healthy,  
but don't starve the birds.  
The healthy hen is usually active,  
and likewise the active hen is usually  
healthy.

In return for the money invested  
poultry brings as good profits as any-  
thing upon the farm.  
No one can raise fowls and eggs so  
economically as the farmer. Every-  
thing the poultryman must buy the  
farmer raises.

Scaly legs may be prevented or cured  
by using lard and sulphur. The color  
of the leg will also be improved by  
the use of this.

Place a box of dry wheat bran  
where the fowls and chicks can get it  
at all times. It is good for them,  
and they cannot eat too much. If they  
do not eat it readily at first mix a little  
corn meal or millet with it as  
a sort of bait. It won't be long before  
the bran box will attract them with-  
out the need of bait.

#### Selection of Seed.

Good stock is one of the most im-  
portant details connected with suc-  
cessful agriculture, and too much care  
cannot be exercised, says Farm and  
Hatch. The annual loss from plant-  
ing poor or worthless seed is enormous  
and cannot be computed in dollars and  
cents. Besides the loss of a crop,  
there is always the danger of noxious  
weeds being introduced with the cheap  
seed. Only the purest seed is worth  
planting, and it can be obtained only  
from reliable seed houses.

#### The Farm Wood Lot.

Every farmer should have a wood  
lot, and in the fall he should plant  
trees to take the place of the ones he  
cut down during the preceding year.  
If people would only take the trouble  
to plant a new tree for every one they  
cut down the forestry question would  
be solved.

#### Birdie's Song.

Once a little baby birdie grew, grew,  
When his wings were stronger birdie flew.  
Through the apple boughs he fluttered,  
Pop, hop, hop.  
"Twit-tit-tit" till you'd think he couldn't  
stop, stop, stop.  
"Life," he said, "is joyous—oh it's gay,  
gay, gay!"  
And then his happy birding flew away,  
Way, way,  
But the memory of his song is clear,  
Clear, clear,  
When at night his little refrain is heard  
"Cheer, cheer!"

#### In the Enclosure.

"So you confess that the rate at  
which you traveled was the means of  
placing several persons in serious dan-  
ger?"  
"Yes," answered Mr. Chagins. "The  
policeman who was chasing us very  
heavily ran into three baby carriages."  
—Washington Star.

#### No Relief to Him.

"When you are angry," said the man  
at gentle instance, "wring and count a  
hundred."  
"A hundred?" echoed Mr. Stries Bar.  
"If I could stop, wring, hundred in  
counting up my wife's milliners' bills  
I wouldn't be angry." — Washington  
Star.

#### How He Went.

"And if you really ascended that aw-  
ful mountain why did you leave so  
late?"  
"The footprint left by the steepest  
body is not a tangible thing," respon-  
ded the explorer, with a dignity almost  
triplé.—Philadelphia Ledger.
